DrayTek
Aust & NZ

Workshop Invitation
Brisbane, Queensland

You are invited to register your interest in attending this beneficial workshop. This workshop is an excellent opportunity for DrayTek resellers or anyone who is interested in becoming a DrayTek reseller to find out more about DrayTek products and configuration options available. The course includes theory on various configuration options available followed by practical hands on sessions with DrayTek devices to give you first-hand experience to test each scenario discussed.

All equipment and training material will be provided for the workshop. Light refreshments and lunch will also be provided.

Workshop Information

You are cordially invited to attend a DrayTek workshop

Topics: 1. Routing in DrayTek Routers, Load Balance/Routing Policy
2. VigorACS 2 – Advanced Centralized Management System
for Network Administrators

Date: Thursday, 15th November 2018

Time: 9:40am - 4:40pm

Venue: ILP Learning Hub
17 Gould Road, Herston, QLD 4006

Objective:

Course Modules (#2)

Session 1: Routing in DrayTek Routers

Learn to configure and use the routing capability in DrayTek routers. The

course will start with an introduction to IP basics which looks at IP addressing and routing protocol options used in DrayTek routers. Static and Dynamic route modes will be discussed followed by practical hands on sessions for each of these routing modes.

In addition, Load Balance/Routing Policy which is an extension of the routing capability in DrayTek routers, including a practical hand on session will be covered.

Session 2: VigorACS 2 – Features and Benefits

VigorACS 2 is a powerful Centralised Management platform used to remotely manage and configure DrayTek Vigor devices such as routers, access points and switches. In this course you will learn the features and benefits of VigorACS 2 and configuration options available. In the hands-on session you will create a network using DrayTek devices, and manage the network using VigorACS 2 for various tasks including network devices registration, scheduled firmware upgrade, network status reporting, etc. One of the exercises shows how quick and easy it is to set up IPsec VPN tunnels between routers using VigorACS 2.

Intended Participants:

DrayTek resellers or anyone interested in becoming a reseller of DrayTek products including system integrators, network administrators, etc.

Registration fee:

After confirmation of your registration, you will be invoiced for \$250 registration fee. You will receive a \$250 credit note for your next purchase order for DrayTek devices.

Certificate of Participation:

You will be presented a Certificate of Participation including the course topics. This paper will attest that you are proficient in the module contents and help to promote your services to your potential customers.

Schedule :

Registration:	9:40am - 10:00am
Introduction:	10:00am - 10:15am
Session 1:	10:15am - 11:15am
Break:	11:15am - 11:30am
Session 2:	11:30am - 12:30pm
Lunch:	12:30pm - 1:10pm
